

The Home

Notato Salad: While hot pare the skin from six potatoes, slice, season with salt and pepper and add two chopped onions. Cut two onions of bacon in small bits and fry brown. Add to this one-half cup of good cider vinegar and pour immediately over the potatoes and onions. Stir carefully with a spoon. Serve hot or cold with hot sausages.

Peach Sponge: Use one-half box of gelatin, one-half cupful of water and one cup of peaches. Soak the peaches with sugar until soft, run through a sieve, add the gelatin and cook. Then add the whites of three well beaten eggs. Mold and set on ice. Serve with a cold custard. Other fruits can be utilized in much the same way to form a delicate dessert, which is more appreciated when following a heavy dinner than the richer puddings.

Three-Ply Cake: Take four eggs, two cupfuls of white sugar, three cupfuls of flour, three-fourths of a cupful of butter, one cupful of milk and two teaspoonfuls of baking powder. Cream the butter and sugar until smooth, then add the milk and flour alternately, a little at a time, beating briskly until very smooth. Make the first layer of this mixture. Then add the yolks of eggs for the second layer. For the last, stir in one-half cupful of chopped raisins and a teaspoonful each of cinnamon and allspice.

Appetizing Sandwich: Savory sandwiches for luncheon may be made from a pound of cooked salmon chopped fine, an equal amount of mayonnaise dressing and two tablespoonfuls of chopped capers. Beat well and spread between thin slices of bread. Another sandwich often served is an appetizer consists of two ounces of cold chicken chopped fine, one ounce of ham or tongue which has been added to two tablespoonfuls of white sauce and a pinch of curry powder. Fry some squares of toast in butter, cover this with the mixture, bake for ten minutes and serve hot.

A Bun Loaf: This popular loaf is made from one quart of sifted flour, three eggs, one tablespoonful of butter rubbed light with two of powdered sugar, half a yeast cake dissolved in a large cupful of lukewarm water, a cupful of currants washed, dried and picked over, half teaspoonful of salt and a quarter teaspoonful of soda. Mix all the ingredients together in a soft dough, except the currants. If stiff, add a little warm water and set to rise on a very light. Knead again, mold into a loaf when the currants have been dredged with dry flour and worked in. Let rise for an hour and bake in a steady oven, covering with paper as it rises. Eat fresh, but not warm.

Good Cake Filling: Boiled icing with coconut added and flavored with orange peel makes a good filling for cake. The foundation of these fillings is always a boiled icing, made of a cup of sugar and five tablespoonfuls of water boiled together until it threads and poured over the white of an egg beaten to a very stiff froth. Beat in the boiled syrup as it is poured into the white of egg. Add the juice of an orange and a small cup of coconut, to the icing after it threads and grate in the peel of half an orange. Beat the mixture into the white of an egg. This will make two layers of filling. Ice the cake with plain icing flavored with half the rind of an orange. To make a plum filling chop fine two or three tablespoonfuls of stoned prunes. Flavor with a little lemon and add them to a boiled icing. To make a fig filling chop a few figs, add a little lemon juice and stir them into a boiled icing.

MODERN PUEBLO POTTERY.

Collection of A. F. Spiegelberg in New Mexico Building at St. Louis Exposition Attractive.

Is a prominent part of the New Mexico building at the World's Fair is a display of Indian pottery which has, up to date, received more attention than any one display from any other section in the union. This display of pottery was sent from Santa Fe by A. F. Spiegelberg, and among the sixty-one pieces exhibited, every pottery-producing pueblo in the territory of New Mexico is represented. This collection is acknowledged by connoisseurs to be one of the best in the United States.

For many months and ever since the New Mexico board of managers of the Louisiana Purchase exposition requested Mr. Spiegelberg to send a display of pottery to the World's Fair, he has been collecting a tinaja here and olla there for the exhibit. Only the modern pottery comprises this display, and there is not a single piece of ancient or even fairly old work in the collection. Every piece is of the most modern Indian workmanship.

The collection was boxed and sent to St. Louis the latter part of March. The exhibit consisted of four tinajas or jars from Acama pueblo; a tinaja, two bowls and two tinajas (little jars) from Zuni; from Ora, two tinajas; from San Ildefonso, a tinaja and very large jar, two tinajas and three small pieces; Santo Domingo, two tinajas, a bowl, two tinajas and two pitchers; Tesuque, a bowl, two ollitas and three ollas. Tesuque is the only pueblo in the territory besides Cochiti whose people make ollas. Cochiti contributed two ollas, a tinaja and another small piece. San Juan also sent a few small pieces, for with these people, like those of Tesuque, the art of making pottery is almost obsolete. Santa Clara is represented in the exhibit by a tinaja and

two tinajas, a loving cup, a tinajita two double bowls and a vase. Isleta sent four small pieces. When the fair is over the pottery will be sold and Mr. Spiegelberg has already received several offers. There is quite a demand among collectors for the quaint and unique work of the Pueblo Indians of New Mexico whether ancient or modern. Carefully selected collections like the one described above always bring good prices.

DESTITUTE INDIANS

WILL DRAW RATIONS FROM UNCLE SAM—SHORT OF WATER TO IRRIGATE.

The United States government will take immediate steps to provide the Indians upon the San Carlos reservation with water for irrigating their lands. Pumping plants are to be installed for this purpose. This decision is the result of a visit which Rev. T. C. Moffet, of the Home Missionary board of the Presbyterian church, recently made at Washington. Rev. Moffet, who is pastor of the Presbyterian church at Tucson, Arizona, took the matter up with both the president and the secretary of the interior, being accorded a personal interview by both Mr. Roosevelt and Mr. Hitchcock. Mr. H. W. Cole, a special agent who had been investigating the matter, confirmed Rev. Moffet's statement, and the officials at Washington recognized that the need for immediate action was pressing. The San Carlos reservation will undoubtedly be ultimately constructed, but for the present emergency pumping plants will be installed. The power used will be brought from the Toito-Basin reservoir plant.

Rev. Moffet says that 5,000 Indians on the reservation will have to be carried by the government, the latter part of this year to prevent them from starving. The dry season has ruined their crops, and they will be without support. The Presbyterian church is working in this field and wants to see the Indians self-sustaining. With this end in view the Presbyterian missionaries have been working for a long time to secure government aid in irrigation projects, and they have finally met with success, as action will be immediately taken.

MAJOR A. S. B. KEYES

VISITS EL PASO WITH MRS. KEYES AND MRS. MAX LUNA.

Major A. S. B. Keyes, of the United States army, retired, is at El Paso accompanied by Mrs. Keyes and daughter, Mrs. Max Luna. All are very well known in New Mexico, especially Mrs. Luna, who was the wife of Captain Luna, of Valencia county, who was drowned while crossing a stream in the Philippines as a soldier of the United States army.

The El Paso Herald, in commenting on the visit of Major Keyes to the Pass City, says:

Major Keyes is one of the old army. He was a lieutenant at the outbreak of the Civil war and served through that bloody conflict with honor and distinction, coming out at its conclusion a captain of cavalry. He then came west and served among the Indians for years, where he sustained disabilities which necessitated his retirement shortly after he was given the gold leaves for his shoulder straps and made a major.

Major Keyes has a son and son-in-law in the army following in his footsteps, and he gave up another son and a son-in-law in the late Spanish-American conflict. Captain Harold B. Pike, of the infantry arm, is the son-in-law now in the service, and Lieutenant Jack Keyes of the Twelfth cavalry, is the son.

Captain Maximilian Luna, of the well known Luna family, of New Mexico, is the son-in-law, who lost his life in the service of his country, and Lieutenant Max Keyes, of the Third infantry, is the son. Lieutenant Keyes was killed in a fight in the Philippines while leading a charge and just one week later Captain Luna, of the volunteers, met death in a swollen stream while attempting to cross it when on staff duty with General Lawton, just before that gallant officer's death.

Captain Luna was a troop commander in the Rough Riders, of which President Roosevelt was lieutenant colonel, and later colonel and served with Governor Brodie, of Arizona, who was a major and later lieutenant colonel; with Captain W. H. H. Llewellyn, of Las Cruces, who later became a major, and with many other well known men of this section, and at the surrender of Santiago he acted as interpreter between General Torral, the Spanish commander, and General Shafter, the American commander.

Lieutenant Keyes went into the fight as a subaltern in Captain Luna's troop, being its second lieutenant, but he was soon promoted to the position of first lieutenant and made the adjutant of Colonel Roosevelt. As he had already served in the regular army as an enlisted man, where he was working for a commission, his knowledge of military affairs, was a great help to the colonel.

Injunction Denied. Ottawa, Kan., May 28.—District Judge Smart today denied application of the Santa Fe railway for a permanent injunction against the striking machinists here. He said there was no evidence and intention to commit a disturbance.

STRONG FLOW OF WATER. Drilling on the Artesian well on the grounds of the United States Industrial school at Santa Fe reached a depth of 162 feet Friday night, but work had to be stopped, as quite a strong flow of water was struck, which rose from fifteen to twenty feet in the pipe. It is not an artesian flow, but there seems to be plenty of it, and it is of excellent quality. The drill will now have to be cased in order to go through this strata of water. This will interfere with the work of the drill for a week or ten days. A full thousand feet will be drilled, unless a strong artesian flow is struck before that depth is attained. Gun Malholand, who has the contract for drilling the well, left Saturday for Santa Rosa, where he will remain two or three days looking after another well-drilling outfit at work near that town.

New York News Letter

New York, May 28.—The impression is gaining ground among the friends of Judge Parker, that if he is defeated he will owe his defeat to the obstinacy and spitefulness of his own campaign manager, David B. Hill. The same which the old politician is playing is difficult to understand. Any politician with an average modicum of common sense must know that Parker is not a strong candidate, and his defeat in New York is almost certain unless the various elements of his party can be harmonized in such a way as to bring out the full party vote at the next election. It is equally clear that to antagonize the most powerful faction in the party in every way possible is not a very good method of bringing about harmony. The attitude of Hill and his associates is considered by many sensible and conservative democratic politicians as perfectly suicidal and extremely foolish. It seems that Hill as well as his insignificant little appendage, McCarron, are determined to humiliate Tammany leader Murphy at every opportunity, possibly under the mistaken impression that they can force him into submission. Sooner or later they will undoubtedly discover that they made a serious mistake, but it will be Parker who will have to suffer the consequences of their stupidity. He will come the victim of their petty spite against Tammany.

Funny Men to Meet in St. Louis. St. Louis, May 28.—A flood of jokes and jokes is expected to sweep down upon St. Louis and the World's Fair during the three days beginning tomorrow. During these three days a convention is to be held of the American Press Humorists, organized in Baltimore in May of last year. Not very many of the members are on hand as yet, but when the convention opens it is expected there will be funny men here, several of them in all, from Chicago, Baltimore, New York, Boston, Pittsburgh, Washington and other cities of the country.

Elaborate entertainment is being arranged for the visitors. Wednesday has been designated as American Press Humorists' day at the exposition. The Business Men's league will entertain the organization at a banquet at the Mercantile club. Among the scheduled speakers are Champ Clark, humorist of the house of representatives; Hon. Eugene Ware, the Kansas poet and United States commissioner of pensions; Robert J. Barretto, humorist, lecturer and author, and El Perkins, the pioneer of them all.

SOLID SILVER

SOME ANCIENT PIECES MAY BE SENT TO THE WORLD'S FAIR.

Mrs. Joseph B. Sanchez of Valencia county, who is a member of one of the first Spanish families of New Mexico, is the proud possessor of twelve pieces of massive solid silver which were brought to the United States by her Spanish ancestors in the year 1579. The Citizen learns that friends in central New Mexico, who have had the pleasure of looking at these ancient family heirlooms, have requested Mrs. Sanchez to send them to the World's Fair and place them among the New Mexico exhibit. The lady is thinking seriously of sending several of the pieces to the World's Fair, and should she consent, the pieces will be much admired at the New Mexico building.

Bryan Mawr Commencement. Bryan Mawr, Pa., May 28.—Everything is in readiness for commencement week at Bryan Mawr college. The exercises will begin tomorrow evening with the laudatory sermon by Dr. William De Witt Hylle, president of Bowdoin college. The garden party, given by the senior class, will take place on Wednesday, and the degrees will be conferred on the day following. The commencement address will be delivered by Carroll D. Wright, president of Clark university, his subject being "A Problem in Social Economics."

SUIT FILED

JOHN SNEED AND HARRY NORMAN ALLEGE FAILURE OF J. F. MITCHELL TO PERFORM A CONTRACT.

J. F. Mitchell, the present lessee of the Evening News, is made the defendant in a suit filed in the district court Saturday by John Sneed and Harry Norman, until recently business manager and managing editor of the paper, respectively, in which they seek to recover the sum of \$5,700 for an alleged failure to live up to the terms of a contract, says the El Paso Herald.

The plaintiffs in their complaint set out that on February 13 of the present year, J. F. Mitchell entered into a contract with them, by the terms of which he agreed to organize a stock company for \$2,000 or more to lease and publish the Evening News for a period of five years, giving them a third of the capital stock.

The defendant, it is alleged, also agreed to pay back the stock at the rate of \$50 a month until \$700 worth of the stock was in this manner taken up. These things the defendant promised to do by the first of April, they allege.

In consideration of the above conditions, the plaintiffs, who were at that time lessees of the News as a co-operative publishing company, agreed to transfer a three years' lease which they held on the paper to Mitchell and also to remain in his employ at a stipulated salary and to run and manage the paper for him or his agents.

The plaintiffs allege that the defendant has failed to live up to any of the conditions of said contract and that they are hereby damaged in the sum of \$5,700, for which they demand judgment.

Dr. and Mrs. W. W. Spargo, accompanied by Miss Campbell, will leave tonight for Santa Clara, where they will spend several weeks at the sea coast.

New York News Letter

is actually enforced, as the officials assert. There is evidently a colored gentleman in the wood pile somewhere.

Dr. Herman N. Higgs, in charge of the Bacteriological Department of Health, has made the statement that there were ninety-seven deaths from cerebro spinal meningitis during the last week, and a hundred and fifty deaths during the same time from coxal disease. Last year, during the corresponding week, the total was 35. The deaths from cerebro spinal meningitis, said Dr. Higgs, were ten per cent of the total for the week, a record which is considered highly alarming. The disease has steadily increased since March 1, and not since 1873 has there been such an outbreak. Another feature is that the cases are exceedingly violent, and those who escape death from the disease are generally left with some impediment, either blindness, deafness or paralysis. Formerly it was believed that the disease only attacked children, but the records of the department show that thirty-three cases were of persons between five and fifteen years, twenty-three of persons over fifteen, and the remainder of children under five years. It is not known what has caused this epidemic.

There seems to be a perfect epidemic of crime in this city at present, particularly crimes against the person, and the daily papers are filled with the most sensational stories of murders, suicides, mysterious disappearances, etc. During the last three months the number of children and grown persons who have mysteriously disappeared, was unusually great, and it may be added that the police department of Greater New York has not distinguished itself by its success in finding traces of the missing persons. One of the most sensational cases is the disappearance of Mrs. Leroy Jones, the wife of a wealthy man, and quite prominent in society circles. The disappearance of the woman has led to the unearthing of a good sized skeleton in the Jones family closet.

Maude Adams has given another proof that she is fond of solitude by purchasing a sixty-acre farm adjoining her country seat at Ronkonkoma, L. I. The place is far away from the lines of travel, and is said to be a perfect wilderness, just suited to the hermitical tastes of the talented actress.

SOUTHERN CATTLE

Movements of the Horned Stock to Northern Markets.

While there have been no rains in the immediate vicinity of Deming, still good showers have fallen in various parts of the country surrounding that city and the ranges in general are rapidly improving in consequence. This, added to the large number of shipments that have already been made and those to be made in the very near future, will greatly relieve the condition of the cattle on the ranges. There never has been the amount of loss and suffering that parties and newspapers have accredited to that locality.

There were shipments from the stockyards at Deming during the past week as follows:

T. H. Hall, 236 head of yearlings; A. C. and J. E. Foster, 148 head of yearlings; J. W. Phillips, 169 head of yearlings; Mrs. O. C. Carpenter, by father Foster, 144 head of yearlings; T. R. Kerr, 35 head of yearlings; T. R. Kerr, 35 head of two-year-olds; T. G. Word, 7 head of yearlings; W. B. Edwards, 2 head of yearlings; Wilson Bros., 237 head of yearlings; T. G. Word, 128 head of yearlings; John R. Snyder and Lewis Bros., 226 head of yearlings; W. J. Wamel, 119 head of yearlings.

Died on the Desert. Dennis Whalen, aged 28, attempted to make the trip from Manvel to some of the grading camps on the Salt Lake road, says the Needles Eye. It was too long a walk and he became tired out. Hours afterward two travelers found him nearly dead from exhaustion and, although they did all in their power to recuperate the weakened man, he died near Marl springs. He was underneath some shelving rock where he had dragged himself for protection from the sun. He was brought to Ivapah and the coroner's jury brought in a verdict of death from exposure. Little was learned of relatives, as he was a man of evident roving disposition and without family ties.

Meeting of B'nai B'rith. Des Moines, Ia., May 28.—The annual grand lodge meeting of the Independent Order of B'nai B'rith, which will begin a three days' session tomorrow, has attracted to Des Moines a number of men of national prominence. On the opening program will appear Hon. Bradley R. Hayner, senator-elect from Maryland. Other speakers who are expected are Samuel Alchuler, former democratic candidate for governor of Illinois; Edward Rosewater of Omaha, Adolph Kraus of Chicago, and Mayor Samuel Fox of Kalamazoo, Michigan.

Michigan at Andersonville. Detroit, Mich., May 28.—Governor and Mrs. Bliss, accompanied by the members of the governor's staff and a number of prominent war veterans and others, left Detroit in a special train today for the south. Their objective point is Andersonville, Georgia, where, on Memorial day, there will be dedicated a monument to the Michigan soldiers who died or suffered in Andersonville prison during the war. En route to Andersonville the party will visit a number of the famous battlefields of Tennessee and Georgia.

Chinese Red Cross. Peking, May 28.—There has been issued an Imperial decree ordering the establishment of a Red Cross so-

THE CEBOLLETA LAND GRANT.

In the partition suit of the Cebolleta land grant, which contains 199,800 acres and is located partly in the counties of Bernalillo, Valencia and McKinley, and which suit has been pending in the Second judicial district court before Judge Baker in Albuquerque, the judge has made an order directing the referee, Harry F. Lee, to file his final report tomorrow, and has set the case for Wednesday for consideration of the report and to hear arguments by counsel upon it. A decision by the judge is expected at an early date. This will close the case, and the several interests of the claimants will then be ascertained. The attorneys for the principal claimants are Frank W. Glancy, of this city; Hon. L. H. Prince, of Santa Fe, and Dale and H. A. Hickey. These attorneys represent clients claiming about nine-tenths of the grant.

FAT MAN VS. RAILROAD

THE LATTER WON IN RACE, BUT THE FAT MAN CAUSED MUCH LAUGHTER.

The boys at Lempi's brewing establishment at St. Louis will have the laugh on big Ed. Kaufman when they see this item. Mr. Kaufman is the traveling representative for the Lempi, and is just returning home from a tour around the world. He stopped off here to enjoy a few days' rest and to interview the company's local agents, Hachschel & Glom. He was scheduled to leave for St. Louis on the No. 2 this morning, but the train came in about two hours late, he figured out that he had plenty of time to walk around the principal streets of the city and drop in at Hachschel's where he hoped to sell the firm a car load of the bottled beverage. He lingered about a minute too long, and when he reached the east side steps of the Alvarado hotel the train was moving slowly out from the depot. Ed, who carries a few pounds less than 200, started on a run as fast as his fat limbs would carry him; once he was within a few yards of the rear car of the train, which happened to be the special of the California University Glee and Mandolin club, at which the musical boys cheered, on his efforts, he could run no faster and therefore failed to decrease the space between himself and the moving train. He moved his arms, ejaculated a little, and kept the pace up until he had passed the Railroad Avenue crossing. The train kept moving—it was going faster, and Ed gave up the chase in disgust. While it lasted, the race caused a merry laugh among those who stood nearby and watched it.

WHITCOMB SPRINGS

A NEARBY POPULAR RESORT VISITED BY MANY PEOPLE.

The following party spent Saturday and Sunday at the springs: Fred Newman, Miss Mabel Hunt, Dr. Fitzgerald, Miss N. Wetter, Roy Stamm, Miss Betty Wilton, Ralph Hunt, Miss Jeanette Wilton, Miss E. Willey, Mrs. R. L. Hunt. Of the party six made the trip on horseback to Mt. "Eugene."

Dr. M. K. Wylder and Dr. Abrams drove out and spent Sunday.

Miss D. K. Hubbard and Mrs. Wako, the former from Chicago, the latter from Milwaukee, were visitors last week.

Mr. H. C. Howe, of Yonkers, N. Y., spent the last few days at the hotel. He will leave this evening on a visit to his parents at Yonkers. He expects to return in the fall.

W. W. Daeon and family, Miss Ruth Smythe and N. Milles are occupying cottages below the hotel. They expect to remain all summer.

Bernalillo Bourp, Miss Ethel Garlin, Miss Emma Rossler, Mr. and Mrs. J. C. Forger, constituted a party that spent Sunday and decoration day at camp.

Mr. W. C. Holman and family and R. Moore have arrived and are busy engaged in pitching tents which they will occupy during the summer.

A picnic party in honor of A. L. Newton, spent most of decoration day in this vicinity.

Charles Goodell and sister, Miss Lucy, are comfortably settled in "Cedar Cottage" where they will remain for the season.

DOUBLE BIRTHDAY PARTY.

Master Willie Fraser and Miss Elsie Fraser Honored.

Last night, at No. 329 South Broadway, Mr. and Mrs. Andrew Fraser gave a double birthday party in honor of the fourteenth and eleventh anniversaries of their two children, Willie and Elsie Fraser respectively. The parents were assisted by Mr. and Mrs. McSpadden and Mrs. Dry and all who were present enjoyed themselves hugely for several hours. Ice cream and cake, and other good things for children were served. The following were present: Girls—Francis Myers, Vera and Lillian Norman, Edith Morning, Rachel Boyd, Jane Long, Gladys Hayden, Bernice Roberts, Boys—Clarence McSpadden, James Cole, Lyle Hawthorne, Chas. Insley, Harry Fredericks, Fred Dry.

Drying preparations simply developed.

dry catarrh, they dry up the mucous, which adhere to the membrane and decompose, causing a foul and offensive condition of the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and acids and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 54 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It cures itself over an irritated and inflamed surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

MYSTERIOUS DEATH OF JOSEPH NIXON

TOOK QUININE TABLETS, THEN HAD CONVULSIONS AND PASSED AWAY—HAD \$77,000 IN LIFE INSURANCE.

Did Joseph Nixon, proprietor of the Parlor barber shop, die of his own act or from natural causes Saturday night, is a question that is being investigated by the officers and several physicians today, says the El Paso Herald.

The death is a most peculiar one and is surrounded by several peculiar circumstances which, looked at one way, indicate suicide, and in another way a natural death. The deceased himself stoutly maintained a short time before his death that he had not taken anything but a capsule containing quinine, but four reputable physicians who were called to attend him before he died have testified before Justice Mitchell, acting as coroner, that Nixon's death was attended by every symptom of strychnine poisoning.

The dead man's stomach has been removed and its contents are being analyzed by Dr. Villan and the result of the analysis will, it is thought, settle the mooted question as to the cause of the strange death.

The suicide theory is strengthened by the fact that Nixon carried \$72,000 insurance, \$25,000 in the New York Life, a similar amount in the Prudential and \$22,000 in the Mercantile. All of this insurance was taken out by him within the past eight months, with the exception of the \$2,000 carried in the Mercantile.

FAIR GROUNDS EVENTS

EXCITING BICYCLE RACES AND BASE BALL GAME YESTERDAY AFTERNOON.

The events at the fair grounds yesterday were attended by about 600 people. The bicycle races were the feature of the afternoon. In the senior races, in first prize was won by Ray Heivley, with W. P. Cook second, and Raymond Stamm third. Heivley and Cook tied on points and rode a half mile to decide the winner. Heivley distanced his adversary at the finish which made him the winner of the first prize which was a fine Hartford Special bicycle offered by F. J. Houston, the sporting goods merchant on Gold avenue. Stamm and Cook tied for second place and had to go another half mile to decide the winner. Cook won this race, which placed him and Heivley on a tie for points. Heivley and Cook rode Cleveland and Stamm rode a Hartford. The following are the races and the winners:

One Mile Open—Senior Class.

Ray Heivley, first; W. P. Cook, second; Raymond Stamm, third.

Half-Mile Handicap—Junior Class.

Harry Dodson, scratch, first; Edie Truswell, scratch, second; Herbert Gales, 25 yards, third.

Half-Mile Open—Senior Class.

Ray Heivley, first; W. P. Cook, second; Raymond Stamm, third.

Half-Mile Handicap—Junior Class.

Harry Dodson, scratch, first; Edie Truswell, scratch, second; Herbert Gales, 15 yards, third.

Two-Mile Handicap.

Bob Hutchinson, 60 yards, first; Raymond Stamm and W. P. Cook, scratch, tie for second, and Ray Heivley, scratch, fourth. Stamm and Cook ran a half mile to decide the tie and Cook won.

Five-Mile Handicap.

W. P. Cook, scratch, first; Ray Heivley, scratch, second; Raymond Stamm, scratch, third. In this race Stamm received a hard fall but got up, righted his wheel, caught his men and finished third. His wheel was also crippled in the fall.

There were several entries in the above races that may be expected to develop into fast riders before the season is over and several more events will be held this summer in which the people may expect to see some fast riding.

There is some talk of getting up a large meet for July 4th and offering prizes for the winners of individual races and not on points as was done in yesterday's meet. This is bound to stimulate a lively interest and more entries are expected to be made in the races ridden on this plan.

W. P. Cook, the winner of the second prize, received a fine pair of field glasses offered by the Heber Optical Co., and Stamm a racing suit and a pair of racing shoes.

In the Junior races, Harry Dodson received the first prize, a racing suit; Edie Truswell, second, a pair of racing shoes and Herbert Gales a knife and case.

The ball game which was played while the above races were being run, between the Old Town Tigers and the Shop's team, resulted in a victory for the Tigers by a score of 16 to 4. The Tigers winning the nine pairs of base ball shoes.

"I Will Build You a Home."

This is the motto of Col. Joseph H. Stahl, who has just located in this city from Houston, Tex., as general contractor and builder, architect and engineer. He wants to build the leaders of The Citizen's home on their lots, and will furnish all necessary plans and specifications. He is far excellent in his line of trade, and means every word mentioned in his advertisement. He has established himself at No. 112 North Second street, and would like to consult all those who desire to own their own homes.

School Directors.

As The Citizen understands it, at the election to be held for school directors in the various precincts of the county on June 6, 1904, each precinct will elect one director for the term of three years. Where vacancies occur it will be necessary to elect, also, one director for the term of two years.

Nasal Catarrh

It is all stages.

Ely's Cream Balm

It cleanses, soothes and heals the diseased membrane. It cures catarrh, and drives away a cold in the head quickly.

Creams Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

ALL DRUGGISTS, 64 Warren St., New York
